7 and 8 November 2013 conference
HEALTH INEQUITY: FROM EVIDENCE TO ACTION

An international conference to create awareness of the health inequalities faced by persons with intellectual disabilities and translate policy into practice based on the available evidence.

Participants will share their knowledge and experience in interactive workshops in order to create action plans around the themes: prevention and health promotion, treatment and management of health problems, health care delivery and organization.

Plenary speakers and workshop leaders:
Nick Lennox, Jane Tracy, Gyles Glover, Bill Sullivan, Heleen Evenhuis

Workshop leaders:
Patricia Walsh, Petri Embregts, Roger Banks, Helene Ouellette

Pre-conference site visits to three major Dutch care providers (Siza, Dichterbij and Pluryn) on 6 November 2013

CALL FOR ABSTRACTS

Beside the interactive workshops, participants are invited to share their work in poster presentations. The program offers poster tours in which presenters are given limited time to speak about their research. The Frans Scholte award (MAMH) of 1000 euro’s will be presented to the best submitted abstract/poster. Submissions are open from March 1st until May 24th. Click here. For registration click here.
